Subject: RE: chemist positions

Hi Dan-

Sorry it took me so long to reply - I was on vacation from April 30th through May 8, and then sick yesterday. I don't know of any chem I positions opening up, as the lab posted a couple of positions a couple months ago. However, as I found out today, one of the people we were going to hire found another job while waiting for the state's slow hiring process, so we may be re-posting one of the chem 1 positions (though I'm not sure) in the near future. If I find out more I'll let you know. Hope all is going well. Did you ever hear about the other position you applied for?

Talk to you later.

Sonja
